AN INTRODUCTION TO THIS ISSUE OF YOUR TELEPHONE DIRECTORY

This issue of the Ontario Government Telephone Directory is the first to be produced taking advantage of a computerized database and photo typesetting technology. The TELEPAC computer system which helped to produce this directory is introduced on page vi.

The directory has been slightly reorganized and includes new features to make it easier to use.

Emergency Numbers

Additional emergency numbers have been provided on the inside cover. Acquaint yourself with them and write in any emergency numbers that pertain to your building or location.

Office Listing Section

The Office Listings are now printed on blue paper to correspond with the 'Blue Pages' for government information found in Bell Canada and other telephone utility directories throughout the province.

Office and employee names are now printed in larger type to improve readability. Specific office names, mainly at the Division level, are printed in an italic style to make them easier to locate.

Position titles are also clearly separated from the person's name, and the surname is shown before the given name. This will assist you in locating a particular position title or person. Lengthy position titles have been shortened, using the abbreviations listed on page xvi.

Alphabetic Listing Section

In the alphabetic listing, a number is shown in brackets following many of the names. This is the page number in the Office Listing section on which that person's name and office address are listed. If that person's name does not appear in the Office Listing, no page number will show in the alphabetic listing.

Following the page number is a Ministry identifier which is defined on page 1.

Coordinators

In this issue, the names of employees who perform special ministry coordinating functions are listed together at the back of the office listings. They are the coordinators responsible in their respective ministries for Telephone Directory data, Telephone Services, Affirmative Action, French-language Services and Customer Service coordination.

TELEPAC

TELEPAC is a new computer system being implemented in 1983. It is a **T**elephone-related **E**mployee and ministry **P**rogram **A**ccess system designed to provide the government switchboard operators with instant access, via terminals, to current employee, telephone and organizational information.

This information is stored on a computer database and is updated as changes are relayed to system personnel.

The information for the database is provided by each ministry on an ongoing basis. The Ministry of Government Services coordinates the collection, data entry and redistribution of this information. Redistribution is accomplished through the production of printed directories and through online access to the database which, in the future, will be available to various ministries.

KEEPING YOUR TELEPHONE INFORMATION UP TO DATE

As personnel and telephone number changes occur, the information in this directory gradually becomes outdated. Although each subsequent directory momentarily corrects this situation, it is no longer necessary to wait for the compilation of a new directory to record any changes.

The information printed in this directory is recorded on the TELEPAC database, and will be used by Queen's Park switchboard operators to respond to queries regarding your telephone number and your office address. It is therefore in your best interest (and ours) to keep this information up to date on an ongoing basis.

This can only be accomplished with your assistance. When you have any telephone or address changes please inform your Directory Coordinator (see listing on page 344). In the event your coordinator is not available, call directly to the TELEPAC system supervisor at 965-7135.

GENERAL INFORMATION

GOVERNMENT TELEPHONE SYSTEMS

The Ministry of Government Services provides telephone systems throughout the province for public servants to use in communicating with each other and with the public, in the conduct of Government business. At Queen's Park, both a Centrex telephone system, which facilitates direct-in-dialing, and access to an Inter-City Network for inter-city calling, are provided to serve ministries and agencies in the Toronto area. Centrex systems are also provided in Thunder Bay, London, Ottawa, Sudbury and Hamilton. Newly developed technology has enabled the Government to install electronic computerized telecommunication systems in Oshawa and Kingston for 1983. In addition to direct-in-dialing, many new features such as Forward Calling, Conferencing, and other management capabilities are provided with these systems.

TELECOMMUNICATION SERVICES

A complete range of telecommunication services are available to all Government users. Services encompass telephone (local and inter-city), intercom systems, fixed and mobile radio systems, radio paging systems, teletype systems, data communication systems, radio systems, facsimile, video, satellite and various other special telecommunication systems. New and improved common service voice, data, teleconference, radio and other services are currently under development, and will be introduced as soon as available.

Services provided include those of both an operational and an advisory nature. Operational services include telecommunication systems design, systems/service acquisition, systems implementation, and the provision and management of common telecommunication services (Centrex services, Inter-City Network). Telecommunication advisory services include system feasibility studies, systems planning, hardware and software evaluation, project management and coordination and both the preparation of request for proposals and the evaluation of supplier proposals. To obtain additional information or assistance regarding these services, call the Telecommunication Services Branch at 5-1414 (detailed listings on page 164).

CITIZENS' INQUIRY BUREAU

The Citizens' Inquiry Bureau of the Ministry of Government Services provides an information referral service for all government departments. Information about government programs and services is available from (416) 965-3535. A province-wide TTY/TDD (teletype) service for the deaf is also available by calling 1-800-268-7095, or 965-5130 in the Toronto area. The office is located in Room M1-51, Macdonald Block, Queen's Park, Toronto, M7A 1N3.

KWIC INDEX

The "KWIC Index to Your Ontario Government Services" is a companion reference directory to this telephone directory. The KWIC Index can be ordered by writing to the Ministry of Government Services Publications Services, 5th Floor, 880 Bay St., Toronto, M7A 1N8, or purchased in the Ontario Government Bookstore, 880 Bay St., at Grosvenor St., Toronto (Price — \$2.34 + 16¢ tax.)

INTER-CITY NETWORK

The Inter-City Network enables a caller to dial directly from government centrex lines in Toronto to hundreds of other Ontario localities without incurring a long distance toll charge. **It is to be used only for the conduct of government business by the staff of Government of Ontario Ministries and approved agencies, and members of the Provincial Parliament.**

If you are calling from exchange 963, 965 or 248, you can use the Inter-City Network to place a call to a point outside the local Toronto calling area. Dial first the number shown in the "Inter-City" column, for the locality you wish to reach, then the seven-digit local telephone number.

If no Inter-City number for that locality is shown, you should place your call through regular long distance means. For this purpose, the area codes are also displayed in the following chart.

Always give your Inter-City number and area code when quoting your telephone number.

ELECTRONIC COMMUNICATIONS NETWORK

This section offers you a complete listing of all Telex, TWX and telecopier (facsimile) machines currently located in the Ontario Government.

Telex and TWX are teleprinter systems which provide direct station to station communications anywhere in the world where there are compatible systems. Telecopier terminals permit the transmission of hard copy communications from one location to another, at speeds varying from 20 seconds to six minutes, using ordinary telephone lines.

If you do not have a telex or facsimile terminal but wish to communicate with one, either in the Ontario Government or anywhere else in the world, please call the Electronic Communications Office of the Ministry of Government Services at 965-5521, they will be glad to send or receive your message for you.

Any ministry wishing information on acquiring this type of equipment should contact the Telecommunication Services Branch at 965-6265.

It is a pleasure for me to present the "Summer 1983" Telephone Directory which provides convenient access to a full range of Ontario Government services, and telecommunications information.

The Ministry of Government Services has improved this edition of the Telephone Directory in a number of ways. For example, its extensive listings of Ontario Government offices are now contained in a "blue pages" section. This section identifies directly with the blue pages listings in telephone directories throughout the province.

Other new features include page numbers following employee names in the alphabetical listing (white pages) for speedier cross-referencing to office addresses. New and combined listings for provincial government program co-ordinators and a complete redesign makes this directory our most effective to date. Introductory notes in the preliminary pages will provide further details to assist you in using your directory.

I'm delighted to add that we will be taking full advantage of computerized databases and typesetting facilities in compiling and producing future editions. We also continue to welcome any suggestions you may have for improvement of this directory. You should contact the Telephone Directory Project Manager at 965-7135.

Please take a few minutes to become familiar with the Telephone Directory, which along with its companion guide, the KWIC Index To Your Ontario Government Services, can be used to locate services quickly and accurately. Should you require additional information, the staff of the Citizens' Inquiry Bureau, 965-3535, will be pleased to assist.
